EDUCATION

Nxtwave Disruptive Technologies	**May 2023 - Ongoing**
Industry Ready Certification in Full-stack Development	

VNR Vignana Jyothi Institute of Engineering and Technology, Hyderabad	**2023 - 2027**
B Tech (Bachelor of Technology)_Computer Science Engineering (CSE) (8.0 CGPA)	

Resonance Junior College, Hyderabad	**2021 - 2023**
Intermediate_MPC (88.0%)	

Jain Heritage a Cambridge School, Shamirpet	**2020 - 2021**
Secondary School Of Certificate (69.0%)	

SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js
Backend: Python, Express, Node.js
Databases: SQLite
Other skills: Tableau Software

PROJECTS

Food Munch (foodmunchgsai.ccbp.tech)
Developed a responsive website for Food Store where users can see a list of food items, detailed information about a food item, offers
- Designed page using following HTML structure elements like li, header, article, footer elements and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components.

Technologies used: HTML, CSS, Bootstrap

VR Products Store (VR Website) (saivrwebpage.ccbp.tech)
A cutting-edge website dedicated to showcasing the latest and greatest in VR technology.
- Features an attractive design using HTML structure and Bootstrap components, providing a user-friendly interface.
- Optimized for responsiveness, utilizing Bootstrap grid and flex classes, CSS box model properties, and a mobile-first approach.

Technologies used: HTML, CSS, Bootstrap

Todos Application (gsaitejatodo.ccbp.tech)
Developed persistent todo application with CRUD operations to track list of tasks
- Displayed list of todos with HTML list elements, styled todo list using CSS, Bootstrap
- Implemented todo crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects and their methods during todolist CRUD Operations, Persisted todo list state on page reloads using local storage methods.

Technologies used: HTML, CSS, JS, Bootstrap

My Portfolio (https://gsaitejaportfolio.netlify.app/)
I created my portfolio website using HTML, CSS, and Bootstrap to give a clear, organized view of my frontend development skills. It includes sections where I showcase my projects and skills, all within a design that's easy to navigate and looks great on any device. This project reflects my ability to build responsive, visually appealing websites, and it's a strong example of what I bring to frontend development roles.
Technologies used: HTML, CSS, Bootstrap

WORK EXPERIENCE

Bharat Intern (Web Development)   **Mar 2024 - Apr 2024**

Virtual Internship, Telangana
As a Web Development Intern at Bharat Intern (virtual), I focused on strengthening my skills in building responsive, user-centered websites. My tasks involved developing and refining website layouts, implementing interactive features, and optimizing site performance. While exposure to real-world projects allowed me to deepen my knowledge of web technologies and best practices in frontend development.

CERTIFICATES

Web Development Internship

During my virtual internship at Codsoft, I gained hands-on experience with core web development practices. I learned how to structure webpages using HTML, style them with CSS, and bring them to life with interactive elements. Working on real projects helped me understand how to create responsive and user-friendly designs. I also learned the importance of writing clean, organized code and testing it thoroughly to ensure everything works smoothly. Overall, this internship boosted my confidence in building websites from scratch and I can use in future projects.
